DISCUSSION

Some of the benefitted property owners have contacted their City Council representative asking for the City Council to order the design and construction of West Benton from North First Street west approximately 600 feet +/- under a paving unit since their attempt at securing the necessary majority of frontage has not been obtainable. They have tried to get that majority and have become unsuccessful. This area for paving falls under the GAP paving legislation and are asking for that right be exercised by the City Council.

C.D.B.G. funding may apply to the benefitted properties.
